6197. Peter Osborne at Stoke Gabriel Devon. 27. Novem^r. In answer to the Society's Circular Letter. That he should be glad to have the Books set down in his L^r sent to him. That the School at Totnes^{10th} was erected some time since is almost dropt by the change of the Mayor, and the great rage of the small Tax for these 5. or 6. months past, and a late Conduct in some Lessons to promote the Design.

6198. Robert Layne at Saltwood Kent 26. Novem^r. In answer to the Society's Circular Letter, and desiring the Books according to the Catalogue in his Letter may be sent to him. That he hopes the Society will effectually provide, that no Discouragem^t arise to the Grand Article of the Charity Schools, which must undoubtedly be supported by the same Care & Application with which they were raised. That there is not much necessity of adding Labour to the Instruction of the Charity children in those parts, for their poor parents take but too much Care to employ them in bodily Labour, very often to the hindrance of their Learning: That a child taken in at 6. or 8. years of age, and continued with many interruptions from the Necessities of its Parents until 10. 12. or 14. is with them in no Danger of being incapacitated for servile offices.

That if Mr. Downing would print the two prayers for Families in Mr. Nelson's Practice of true Devotion, with the 3. That as for keeping the children to work 'tis absolutely necessary in the Cities, but the poor children in Connaught do come mostly a mile or two to School which makes them active, and because they take em in at 7. and keep em till 15. half that time suffices for their Learning, and so they allow em every other day to work for their Parents at Gardening, Plowing, Harrowing, Turf &c. which makes them labourious enough: That he also finds they could not well be trained to Labour, if they did not make them warm with clothing, for their Parents are so poor, that they would leave them in a manner naked, to learn mostly sleeping in the Day & thieving in the Night: That he is so deeply sensible of this, that he will provide for so. poor Childⁿ forever. That they have not a Jacobite among them in the County except Papists, and the Childⁿ of the Charity Schools are mostly Papist Childⁿ who frequently convert their Parents, of whom several scores have come to Church in the County of Sligoe.

In answer to the Society's Circular Letter, which he approves of
That the teaching the Charity Children and others to spell & read
in the Holy Gospels, makes them contract an Aversion for the
Book, for the same reason that he has contracted an Aversion
to the Sight of a Grammar, because he hated to learn it, and it
gave him pain; And such an annexion there is of Ideas
that if a Dog be wip'd at the Note of a Violin, twice or thrice
he will howl and run away: That the first Christians
taught their children out of the Sapiential Books, plain &
fit for that purpose; To say nothing of the Awe & Reverence
the Jews touch the Book of the Law, the Turks their Alcoran
and the first Christian's the Gospels, but it is hard to break
inveterate Customs, and therefore he submits it to the Society.

6298. Henry Darby at Town Market Suffolk 21. Febr. In answer to the Society's Circular Letter, which he is extremely pleas'd with, and wishes the Legislators would take from it the Hint and remove the Duties upon Paper, on which Bibles and Common Prayer Books are printed: The badness of Paper together with the Blindness & Falsities in print occasioned by the Duties has been in his Opinion the greatest Cause of Ignorance amongst the meaner sort who being very rarely perfected in their reading before they are put to Labour or Business, are afterwards so discouraged by the Obscurity of the print of such cheap Bibles as their Poverty obliges them to buy, that they lay it quite aside in time, so that out of 7. who were taught to read in their youth, there will not be above one that has not forgot it 10. year after. That he should not assert this if his own Experience amongst poor Traders, Servants, Farmers & Labourers did not confirm it. That he should be glad to have the Books annex'd to his Letter sent to him according to the New Regulation, and he will order a Friend in Town to pay for them.

6381. Dean of Norwich's Letter to His Grace the Arch. Bishop of
Canterbury, Dated at Norwich 20 May, Relating to the Proposal
for Printing the New Testament in Arabick, is Entered Verbatim,
as follows.

The Arabick Language is spoken not only in
Arabia, but also through all Mesopotamia, Eux, Syria, Palestine,
and Egypt; And from Egypt on all the Northern Coasts of Africa,
as far as Sen and Morocco, and the Atlantic Ocean.

In Arabia, and all the Northern Coasts of Africa there are
no Christians, except such Slaves as have been taken Captive by the
Turks, to whom an Arabick New Testament can be of no Use, the
Arabic not being their Language.

In Eux, Mesopotamia, Syria, Palestine, and Egypt there
are still remaining Several Inhabitants of the Christian Religion,
Divided into the Several Sects of Nestorians, Eutychians, Monoth-
elites, and Melchites, to whom an Arabick Testament would be of
Great Use, and it would be a Work of Great Charity to furnish them
with it; For there being no Printing in those Parts, all the Copies that
they there have of the Bible, are in Manuscript, which being very
Dear, and Private Christians, being there under the Oppression of
Mahometan Governments, very poor; Few of them have wherewith
to Purchase any of those Copies; And therefore most of them are
without them, and know no further of the Scriptures, than what they
hear read to them in their Publick Assemblies.

That Arabick Version of the New Testament which is Pub-
lished in the London Polyglott is the Propereft for this Purpose; But
whether there be a Font of Arabick Letters in England fit for this
Work, is more than I know, but I think there is not, and if so, there
must then be a New Font cast for this Purpose, and new Punchions
and Matrices must be made for it, which will much augment the
Charge; But if this Work goes on, and there be a Necessity for such
a New Font to be made, Care must be taken that the Pattern be
taken from the fairest Characters. For those that use the Arabick
Language

6384. John James of Rickmersworth Harford. 9. May. Thanking the Society for Encouraging the Charity School there; That it is still kept up, and he hopes it will continue for the Instruction of Reading, Writing, and Learning the Catechism; But that they are not able to clothe them.

6413 John Arysse at Low Layton Essex. 30 May. Inclosing Mr. Negri's Proposal, and Mr. Kirshull's Letter relating to the Printing the New Testament in Arabick.

6414 Edmond Kirshull at Waltham Abbe Essex. 28. May. To Mr. Arysse. His Opinion and Wishes are entirely the same with Mr. Negri's. That it would be an Act highly worthy the Care and Pity of the Society; If, where the Moslem Reigns in Arabick, The Gospel by their Charity, might be spread in the same Language. And suggests That the Impression be done from the Version in the English Polyglot upon good Paper, with Exact Correction of the Press; And without any manner of Preface, or Recommendation. That the Christians of the East may readily receive it, and that the Missionaries Opposition of the Court of Rome may be taken off. That if the Design could be enlarged to make an Edition of four columns, containing the Original Greek, the Greek Vulgar, the Arabick Version, and its Translation into Latin, it would be a Book fit for all the Libraries of Europe; And would be subscribed to in such a Quantity, That One half of the Copies might pay the Charge of the Impression; And the Rest be entirely gained for this most Christian Design.

6415. Anthony W. Bochem in the Strand 4th July. Returning Mr. Negri's Proposal, with One of his own Composure, which he submits to the Consideration of the Society. That the Sending for the Copy of the New Testament in Arabick at Aleppo, is the likeliest way to Obviate all manner of Exceptions that might be started against any Other Impression done after the Polyglote Bible, or Expositors. But that Means should be found for Mr. Negri's Subsistence, who is reduced to the Last Extremity, besides what he now for his Lodging and other Necessaries. That, if the Society should think fit to go on with the Publication of the Proposal, he does not question, but some Money might be raised towards Providing a Post of Letters, and Preparing the way for the whole Design, whenever the Copy in the Levant now, is safely come to the Hands of the Society.

6416 John Dundas at Denburgh Scotland 2^d May. Answered by H. N. 20. Sep.
Desiring leave to print the Substance of his Letter.

Answered 25. April. 1721. C. L.

Samuel Lisle at Wadham College in Oxford. 26th May, That having
 Resided most Part at Smyrna, while he was in Turkey, where the Arabick is
 little known or Regarded, he only laid the Foundation of that Language,
 proposing to resume the Studies thereof in Time and Opportunity. That
 The Printing the New Testament will be very Useful to a Great Number
 of Christians who speak this Language, which is Universal in the Turkish
 Empire, that even the Greek Clergy, some Bishops Excepted, of Asia Minor
 or Europe Understand no other Language, and read the Offices of the
 Church in Arabick; That, the present Version being very Faulty and Imperfect
 it ought either to be made New, or Corrected. That, tho it were made New,
 he questions whether the Christians would part with the Old One, but hopes,
 that if the Old were Corrected, it would answer the Design. And offers
 such a One revised by an English Merchant (M^r. Shearman) at Aleppo
 who has resided 30. years in that Place, and acquired a Perfect Knowledge
 of the Arabick Tongue; having compared the Version in the English
 Polyglott, with that of Exuperius, to the Original Greek Text, by the
 Assistance of all the Commentators to be met with in that Country; And
 having also Corrected the Psalms, the Homilies of S^t. Chrysostom, and all
 the Homilies on S^t. Matthews Gospel; Having likewise composed an
 Index in Arabick to the whole New Testament, with the Explanation
 of the Rites, Customs, and Opinions, and the History, and Geography
 of the Times and Places mentioned in the New Testament. All of which
 were fairly Transcribed before he left Aleppo; And dares undertake for
 his friend, to be willing to Communicate All, or any of those Works to the
 Society, if they shall think fit to write for them. That the Greeks, the
 Syrians, and Maronites together with the several Nations reconverted to the
 Church of Rome, may be considered as Christians comprehended in those
 Countries. The Greeks at Aleppo being the most Numerous Body consisting
 of about 15000. Souls; And are subject to the Patriarch of Aleppo; whom
 he describes ^{being of} an extraordinary Character, having Inspected and approved
 the above mentioned Works. Believes this Patriarch would favour the
 Publication of that Translation, and therefore desires, during his Life, a speedy
 Impression might be made, and that it might be introduced by the Clergy,
 without whose Concurrence the Attempts are like to have no Effect. For
 Great Reverence is paid to the Clergy all the East over from Internal
 Motives, no body disputing with them, because they are persuaded of having
 no Design to Deceive; And should a Patriarch publish an Anathema against
 any

any Book it must be blasted, and the People would not so much as see, or touch it. Given a Parallel Case of the Translation of the N.T. into the Vulgar Greek, which was prohibited; And lookt upon as a Presumption unpardonable to obtrude a Translation of the Scripture made by a Private Hand, without the Knowledge and Consent of the Bishops. The Syrians at Aleppo are not so Numerous, tho' their Nation is considerable farther Eastward and Inhabits a Great Part of Mount Taurus, being under two Patriarchs One residing at Mosul, or Ancient Minis, and the Other at ^{a convent,} They use the Syrian Characters in Writing Arabick. The Maronites proper Country is Mount Libanus from Mount Casius to Palestine, and are Subjects to the Pope, having a Seminary at Rome for Educating their Clergy. Took Notice of some Grecian Youth instructed in this Kingdom but not perfected. Proposed, in case such a Design should be resumed, several Necessary Methods, towards a more Successful Attempt, especially the Arts of Physick or Chirurgery, as being in Great Esteem in Turkey to be added to Learning.

Tuesday 12th July 1720.

6118. Joseph Noy at Aleppo in Syria 18 January, To the Rev^d D^r Bray; That he has good Reason to be pleased with his Post, being arrived the 10th December last, after having missed a Ship bound to Aleppo by his being Sick at Marseilles of a Flux and Fever, so that he waited above two Month for another Ship. Whilst in France he had a good Deal of the Clergy's Company as Jesuits, Benedictines, Fathers of the Oratory, and of the Sorbone; That many of them excepting the Jesuits laughed as much at the Power of the Pope, as in these Parts; But they are much in the Dark about the Word Church. That he found several of them very subtle in managing the popular prejudices, against our Cause; But not One, who understood the true State of the Case, or who seemed to have read any Protestant Writers. They would bear the severest things he could say for a considerable Time, with the greatest good Humour in the World. But their Conversation generally closed with a peevish kind of Zeal; They heartily pitying his Case, and telling him, he should answer One Day for the Learned Instructions they had given him. That he has just begun to Learn Arabick, being desirous to see if any Books worth bringing home are to be met with in that Country.

6421 Thomas Allen at Kettering, Northamptonsh. 28. May. That he has
received the Books desired, and the Packet sent him from the Society, for
which returns them his humble Thanks; That the Fault he finds is,
that the Fine Nonpareil is a smaller Print than the case, tho' the
Paper is better, for their Country People have such an Aversion to a
Small Print, that neither Goodness of Paper, nor Binding, nor any other
Excellency can reconcile them to it; He wishes the Print were such
as the Bibles given by M^r. Lord Wharton's Executors, his Brother,
at M^r. Harbottle in Betterlane near Fleet Street can procure the right
of One, he being One of the Executors, and has supplied most Scholars
of Arleborough School with them. That the Natives of Serampore in

But he cannot be certain whether there will be Time enough to get them fairly transcribed. Because that will be a Work of Time, and that it is not easy to get an amanuensis to Work with so much Diligence as is to be wished; That tho his Letter is to go that Week, by Way of Marseilles, which is the quickest yet it can hardly reach Aleppo before the End of September, and that the Books may come from Scanderone about February next; That it must of Necessity be refer'd to his Friends Discretion, whether he will send over the Copies or the Originals. That he is of Opinion no Application is to be made to the Archbishop of Aleppo, but that the Book should be Printed without any Preface or Introduction; Which was confirmed to him by His Grace the Lord Archbishop of Canterbury, who thinks, the very Name of the Place, where it shall be Printed, ought to be omitted. 6451. Humphry Prideaux at Norwich 27. August. That the Paper he has sent to the Lord Arch Bishop of Canterbury relating to the Printing of the New Testament in Arabic is wholly at his Grace's Disposal to do with it as he shall think fit; That as an Instance of the Poverty of the Christians in the East, the Patriarch of Antioch, who formerly Governed all the Churches of the East, excepting those of Palestine (who were under the Patriarch of Jerusalem) and lived there in great Pomp and Splendor, has now his Residence at Damascus in so mean a Figure, that all his Revenues do not make an Hundred Pounds per Annum.

6452 S^r. Robert de Neufville at Leyden in Holland. 3. September; That having made Enquiry of the Printing the New Testament in Arabic, he has spoke to the most noted Printer at Leyden, who being possessor of the Types of that Printed there ^{in 1616.} by Erpenius, offers to Print 1000 Copies on the same sort of Paper, for £7200. which is about Three Shillings and Four Pence a Piece in Quarto in Sheets, a Copy of which he has sent, and which may be made use of by the Society, for those Copies are so scarce that they are hardly to be had; That the Manuscript Copy in Arabic of Erpenius's Edition is still in the Library at Leyden, and may perhaps be compared with the Printed Copy, if the Society think fit to send a skilful Person to view it. The Printers Proposal he sends Inclosed. And since the Society is in so laudable a Disposition, he has sent them a Copy of the New Testament in Syriac ^{and Latin} printed at Leiden about 10 Years ago, which may be sold at Four Guilders; As also a Syriac and Latin Dictionary at the same Price; Upon ^{both} which he desires the Opinion of M^r. 6472. George Millard at. Bar in Wiltshire 14. September Desiring
a Packet of Books.
- 6473 S.^r John Philipps at Piton Castle Pembroke. 28. September.
Giving Thanks to the Society for the 12 New Testaments sent him,
Inclosing a Bill for Twelve Shillings for the same. That he is glad
to see the Progress for the Printing the Arabic New Testament.
- 6474 S.^r George Wheeler at Durham 1. October. That he will in a short
Time take an Opportunity to speak to the Dean and Chapter
about Subscribing for Printing the Arabic New Testament.
- 6475 William Hallifax at Old Sarum Wiltshire. 1. October. That
he concurs in the Sentiments with those Gentlemen, who approve of the
Printing the New Testament in Arabic, That he entirely agrees
with what has been printed upon that Subject, But that there are some
Difficulties, which will attend the Execution of it, viz. The Great Want
of Industry and Regard to Knowledge, & rather Opposition to it, which
he observed among the People of those Countries as well Christians as
others. And that the Romish Missionaries, who are very Numerous
in those Parts will make all the Opposition they can to disapprove the
Design so like to prove Beneficial and to the Honour of the English
Reformation; And concludes with ~~his~~ ^{his} Inferences of his own Knowledge
concerning their obstinate Resolution to Propagate the Power of the
Church of Rome by Lies and Calumnies upon the Reformation.
- 6476 Edward Sandison at Se'noke Kent 2. October. That if the
Society think the Inserting his Name amongst other Receivers
may in any Measure Promote Benefactions, towards the Impression
of the New Testament in Arabic, it will be a particular Satisfaction
to have his Name Inserted.
6477. George Lewis at Dolgelly Merionethsh. 27. September, ^{Signifying} his
Consent to Print his Letter, with the Proposal for Printing the New

6479 Thomas Fuke at Wyke Dorsetsh. 15. October. That he does not object to the use of his Name at the End of the Proposal for Printing the New Testament in Arabick; he recommends the Printing of Decalogue at the same time to Demonstrate to Jews & Mahometans that all Christians in the Western World have not consented to the Attention therein made to Encourage Idolatry.

6480 Henry Hastings at Utrecht 15. October. That M^r. Vande Water a Bookseller there might be the properest Person to Print the Arabick New Testament, a Specimen of the Characters being Inclosed, he says that 8000 Copies will require a double Set of Types new Cast. That having consulted two Gentlemen Viz. D^r. Dela Haye & M^r. Mils Oriental Professor there, are of Opinion that the Printing without Points will be most Acceptable to the Arabians, who are used to read and Write Arabick without Points. He hopes to give a full Account of the Charges by his next Letter. Proposes D^r. Dela Haye for a Corresponding Member of the Society

6481 Henry Hastings at Utrecht 22^d. October. That the Types, by which the Polyglott N. T. and Golden Edition of Vopernius's Grammar was Printed, can be of no Use, being too much worn. That M^r. Vande Water has a very understanding Workman for Casting of the Types, a Set of which ^{Types} will take up very near six Months.

6482 Henry Hastings at Utrecht 25. October. Sending M^r. Vande Water's Proposal for Printing the Arabick New Testament either in 4^{to} of a small Size of 70. Sheets at 20 Rivers a Copy, ^{or} The Large 8^{to} of Large Paper (which he recommends for its convenient Size before the Quarto) consisting of 40. Sheets in the same Letter, at 19. Rivers a Copy, and that 8000. Copies upon that computation will come to abt. 800. pound Sterling.

6483. Lord Archbishop of Canterbury at Lambeth 10. October. That having read over the extract of Letters relating to the Arabick New Testament, he thinks there is enough to satisfy any Reasonable Man of the Charity and Usefulness (So he would rather have it than Necessity) of such a Design. That he is clearly of Opinion to Print it without any Expence, or Dispute what soever, which may arise a Prejudice against it, or hinder its being dispersed, and read in the Countries for which it is designed. When he knows what the Society resolve, and sees how the Subscriptions run he will give his small Note towards the Promotion of so useful a Work.

- x 6485. Gennadius Archimandrite of Alexandria Chaplain to the Curian Resident at London 7. October. Approving of the Design of Printing the Arabick New Testament. That at Grand Cairo, and in all the Towns under the Jurisdiction of the Patriarch of Alexandria, all the Christians born in that Country speak no other Language than Arabick; And at their Publick Worship, they Read the Epistle and Gospel, and other Parts of Divine Service in Arabick, and only Part of it in Greek. That such a Present cannot fail of being as acceptable as that of the Greek New Testament has been, thinking themselves obliged, every time they read it, to Pray to God, that the Benefactors may be worthy of his Kingdom.
6486. Solomon Negri at London 13. October. Giving his Sentiments relating to the Characters and Points mentioned in Mr. Hastings Letters; That the Character of Epenius's Grammar, published by Golius, is better than that Recommended by Dr. Deleurye & Mr. Mills, and, as the Success chiefly depends upon the best Types, some farther Enquiry should be made at Amsterdam. He Agrees that the Points are not to be Printed, by Reason the young People are taught to have an Abhorrence of the Aleman, wherein all Vowels and other Points are exactly Inserted. He Proposes some Points as necessary between the two Extremes of all or none at all.

 That as the English Translation of the Arguments and Reflections upon the Bible had been Dedicated to the Princess he had taken the Liberty to Present them with Two Copies, Published in French at Neuchâtel, the Body of the Clergy there had added Three more Copies, One for his Grace the Arch Bishop of Canterbury, another to the Society for Promoting Christian Knowledge, and the Third for M^r Chamberlayne. desiring they may be accepted as a Token of the common Respect of the Body of the Clergy, and of M^r Osterwald in particular, That the Book is now appropriated to the use of the Churches of Neuchâtel in the same Manner almost as the Liturgy in order to which he has been obliged to revise it with more Exactness than the Manuscript Copies, which were ^{formerly} sent to England, and that has occasioned several Alterations & Augmentations.

6510. D^r Edw. Waddington at London. 5. Nov. In ans^r. to the Society's Letter enclosing a Proposal for printing the N. Test. & Psalter in Arabic. That such a Design has an appearance of doing great Service to Religion, but he submits two things to the consideration of the Society, One, that the Christians in the East do not at present speak or understand the pure Arabic, The other, the greatness of the Sum to be advanced on this occasion; That when the Society have considered these things they may act as they please as to using his Name as a Receiver of Benefactions, being always ready to answer their Expectations as far as lies in his power.
6511. Tho. Rosse at Ross Herefordsh. 5. Nov. Thanking the Society for the Packet, he had receiv'd, and that M^r. Rich^d. Fisher of Lyons sum was order'd to pay upon demand, his part of the charge of them, which he should be glad to be advis'd of when the Money is paid.

Downing to pay for them 14. 7. ^d supposing it the same thing as if he had remitted ^y Money to M^r. Shute. That he should be glad to find himself mistaken in his apprehensions of the consequences of the Society's having dropped the Charity Schools for 2. or 3. years past to support w^{ch} was one great Design of their Meeting. That as to the objections to his book entituled the Duty of Pub. Worship mov'd, it is impossible for him to obviate 'em, till the Society will be pleas'd to signify what they are, and that no ans^r. has been made to his Proposals in Feb^y last.

That the writer having been a member of both Societies for Propagating the Gospel abroad, & promoting Christian knowledge at home; from their first setting up, he takes the liberty of proposing to the Society a means to lessen the charge of publishing the Psalter in Arabic, by omitting such Psalms as were fitted to the particular circumstances of the Psalmist such as were being persecuted & oppressed by his Enemies, or afflicted with sickness &c.^r and that those being omitted ~~that~~ perhaps 2/3^d of the charge of the whole might be saved. He subjoins a List of such Psalms as he thinks proper to be used; and submits it to the Society to consider whether if the others are not omitted, it may not be proper to distinguish those either at the beginning or the end of the Book of Psalms as best fitted for common use among Christians.

6652. Salomon Negri at London. 19. Aprill Signifying that he has corrected a Manuscript Arabick Psalter brought from Grand Cairo in Egypt and compar'd it with the Greek Text of the Edition of Complute which is thought to be the best, and he has reason to believe that this Manuscript Copy is genuinely what is now us'd in the Greek Church because it Agrees in those Psalms which he learnt by heart when he went to School in Palestine: But for the greater Security of having an exact Copy he recommended it to the Society either to send him down some dayes to Oxford to compare it with the Manuscripts in the Bodleian Library, or to prevail with some Gentleman there to enquire what Copies there are of the Psalter Arabick and he suggests several Characteristicks by which the Copies us'd in the Greek Church may be known from other Copies, and for this more certainty has inclos'd a Copy of the first Psalm intire and two verses of the Fiftieth, or according to the Hebrew the Fifty first Psalm, in order to be compared with the Copies found in the Bodleian.

6666. *John Trymmer London. 19th April, That being fallen under*
Misfortunes not by any wicked or vicious Course of life, but by an
Indiscreet belief that every one meant as they speak, and suffering
himself to be imposed upon by flattery and designing Men to his utter
Ruin, he is so reduced as very often to want his daily ordinary Food,
and therefore Requests his Assistance to extricate him out of his
present Troubles by procuring him Relieve among his Friends who are
Charitably dispos'd

6667. *J. Gagnier Oxford 30th April. In Answer to M^r. Vegri's Letter -*
enquiring after the Manuscript Psalters in Arabic in the Bodleian
Library, That he has found one there given by my Lord Harcourt
Marsh Primate of Ireland which exactly agrees with the Character-
istics given by M^r. Vegri for knowing a true Copy, Excepting that
the Word  which signifies Morning is no where found That
there is the like Copy in Sion College Library where it may be Consulted.
That he has found three other Copies of Psalms in Arabic among the
Manuscripts of Robert Huntington, of which one is made from the
Greek and differs from M^r. Williams's Copy of which M^r. Vegri sent
him a Specimen, and from the Polyglott Copy both at Paris & London,
and from the Edition at Rome 1614. and done by Victorinus Scialand-
gabriel Lionita, That the two other Manuscripts are writt in Syriack Letters
from a Syriack Version in two Columns in Folio, they differ from each
other and all the other Editions, and not one of these three Copies have
the Doxologies nor the Kathismas or prayers, but they have Prefaces
drawn from the Greek Fathers as S^t. Athanasius Hippolyte, Basile,
Epiphane, Gregory the Divine Bishop of Nisse, Chrysostome &c. and at
the End there is found the other Hymns of the old and New Testament.
That as to the Kathismas or prayers which end with an Invocation
to the Virgin Mary, M^r. Vegri rightly Judges that the Society

Memorand. In this Letter Mr. Yonge says that there is no Footstep of the Council at Rome for New England Affairs left there, That one of the Descendants of Mr. John Young's Family is now a Member of Parliam. in London & can perhaps give an Acc^t. of that Council.

have no design to print them, But on the other hand, if they choose this Copy and omit these prayers it may be feared, that the Superstitious Greek Christians who are accustomed to recite them, may reject the Edition as Defective, and the Emperors of Rome may from thence take Occasion to deny it as Spurious and coming from a Protestant Country, That these prayers seem to be Modern and have been inserted in the Psalter only since some of the Eastern Churches have submitted to the See of Rome, since they are found in any other Copies, whether Manuscript or printed nor even in those of the Maronites, That he shall make a further Search for the Arabic Manuscripts of the N. Testament in the Bodleian Library, and give Advice of what he finds.

6668. Wm Ayerst Paris 26th April N. S. That he has distributed the 182. French Common Prayer Books given by the Society to the Embassy - sardis Chappel with a good effect among such as were not acquainted with our Service among the Protestants and has occasioned some Conversions among the more moderate R. Catholics who thereby see that the Church of England is not at such Distance from them in matters of Discipline & Religious Worship as their Priests had made them to believe, and it is not to be doubted but the Harvest will be greater the more they are acquainted with the Liturgy of England. That he is therefore desired by several of both Communion to request of the Society the like Quantity of Common Prayers, as a most effectual means to promote not only the Honour of our Church but sister Christian Union; some of the Doctors of the Sorbonne acknowledging that if ever peace be restored to the Christian Church it must be by some such medium as the Church of England has taken in preserving all it could (consistent with its Doctrines) of the Ancient Form of publick Worship and putting it in the Vulgar Tongue that every one may understand what he is about, That the greatest part of that Learned Body and those call'd Jansemits are vigorous assertors of the people's Privilege to read the Scriptures in their own Tongue and the condemning that practice recommended by Father Duval was one great Reason of their rejecting the late Pope's Bull Unigenitus. That the contests which have been for some years past in France about that Bull has contributed very much to open the Eyes of all Degrees of Men amongst them, And Mon^r. de Baudin the Lieutenant de Police (or first Magistrat of Paris) tho' for Form sake he is forced to arrest now and then some that come from the Protestant Chappels in Order to appear the Clergy of the Parish priests yet frankly declared the other day that as to the Religion of the Church of England he did not think it very different from that of France, But said he must observe the King's Orders in hindring his Subjects from going to Foreign Chappels otherwise he believed three quarters of Paris would go thither. That what ever the Society shall be pleased to send of these Books directed to him at St Robert Sutton's recommended to the Care of M. Pigot at Calcutta will go very safe.

6669. A. Bp. Cant. Lambeth House 27th April. That being Informed how greatly the French Common Prayer Books are desired by the Good men of the Romish Religion and how much good they do among them by removing the Prejudices they had Received against Protestants, he wishes the Society could comply with M^r. Ayerst's desires, which he is persuaded would be of good Use towards promoting true Religion.

6670. Brooke Bridges London 4th May. That he lately Received a Letter from the Rev^d M^r. Maule Dean of Cork Signifying that he had therewith Sent Bills for four Score pounds for the Malabar Mission, being the Bounty of the pious M^r. James Knight of Stewen's Green in Dublin which he sends to the Society for that purpose.

desiring it may be applied in the following manner viz. 50 L. to the Danish Mission
at Tranquebar and 30. to the English on the Coast of Coromandel, and that yesterday
he paid the 80 L. to Mr. Hoare Treasurer for the Mission.

6671.

Dean Maule Dublin 22. April To M^r. Shute. That he had by the same post remitted 80. £. to M^r. Bridges as a Benefaction from M^r. Knight of Dublin for the Malabar Mission and in close a copy of a printed Letter To a Friend Relating to the Infirmary now Building for the Relief of poor Sick persons in Cork. That the like design is carrying on in a more Magnificent manner in the Suburbs of Dublin, Dr. Stevens a late Physician of that City having left 10000 £. and for that purpose, and his Sister who is Executrix, and in whom the Estate is Vested during her Life generously laid aside almost the whole profits for some years past till she raised 10000. £. with is now employ'd on the Building &c. The Foundation of which was laid a few weeks agoe near the Royal Hospital for Old and Invalid Soldiers at Dublin.

6672.

Gov^r. Kane Port Mahon 16. Febry. That he has Receiv'd by the Reverend M^r. Auchenmoly the Society's Letter of the 9th. December with a Box of Books which they have been pleas'd to send for the Soldiers and their Children being a most useful and valuable present and for which he desires his Thanks may be accept'd. That any Expence the Society shall be pleas'd to be at that way for the future will be best bestow'd towards supporting a small printing press in that Island wch may likewise serve for Instructional Translations for the Inhabitants. That having accidentally found a young man in the Royal Regiment of Ireland who serv'd his time to a printer he promis'd to undertake the Work, he has Equipt him and sent him to Genoa to Buy a small press because to wait for one from England would be losing time, he desires that 5. £. may be laid out in M^r. Alvarado's Dialogues which besides the Instruction they give ^{to} learners of English and Spanish, there are some things contain'd in the latter part that will be instructive to both, That he is not yet prepar'd to move for a general Library which he intends to do among the Great Men at Court, and in the mean time if a parochial Library can be obtain'd he has order'd his Correspondent, Col^l. Gardiner or M^r. Cairnes at London to Advance the 5. £. premium on his Acc^t. He desires also that some of Don Alvarado's Spanish Common Prayer Books may be sent at the same time with his Dialogues.

6673.

D^r. J. Colebatch Cambridge 28. April, That he had thro^{ugh} sent a small Catechism in Manuscript brought to him by the Minister of a Parish in Cambridge shire who ~~was~~ has made Catechetical Exercises a great part of his Studies and desires that it may be recommended to the Society to be publish'd if they think it deserves.

6674.
